EDUCATION

Swarnandhra College Of Engineering And Technology(B.Tech)

Mechanical Engineering - CGPA - 8.67

june 2019 – April 2022

Narasapuram, India

GIET Polytechnic College(Diploma)

Diploma in Mechanical Engineering - Percentage - 71%

june 2016 – april 2019

Rajahmundry, India

Elim Vidya Niketan High School

Secondary Education - CGPA - 9.2

june 2015 – April 2016

Palakollu, India

Technical Skills

Languages: Java , SQL

Developer Tools: VS Code, Eclipse, MySQL Work bench

Technologies/Frameworks: JDBC, Servlets, JSP, JPA-Hibernate, Spring Boot, DBMS

Server:Apache Tomcat

PROJECTS

ATM Interface Application 🔗 | Core Java, OOP's Concepts

- It is a console Based Application which is based on Pure Core java.
- Which shows interface of a Atm(i.e,Deposit,withdraw,transfer).
- Where we used classes and objects and also having password matching feature through it decides further process as to be takes place or not.

Restaurant Menu Card-Billing 🔗 | Core Java, OOP's Concepts

- It is a console Based Application.
- Developed a project of Menu card of selecting different options as per our choice and giving bill to particular selected items.
- To develop this project where we using Object oriented Programming Structure.

CRUD Web Application 🔗 | Servlets,JSP,MySQL Workbench,Apache tomcat server

- The Project which is be complete web Application.
- The Project which is to be perform different CRUD Operations(create,delete,insert,update).
- To developing this project where undergone different technologies of Advance Java(Servlets,JSP).
- The Apache Tomcat server works in the center while Java Server Pages and Servlet produce the dynamic pages. It is one of the server-side programming languages that facilitate the developer to run and perform independent dynamic content creation and also used MySQL database for storing data.

Internship

- Successfully completed my internship at INEURON INTELLIGENCE PRIVATE LIMITED where developed different Projects of console based applications and web applications which is based on programming language of Java where technologies based on JDBC, SERVLETS, JSP and database management tool of MySQL and Webserver of Apache tomcat.
- By performing these projects which helps to expand my learnings, knowledge, and skills.

Strengths

- Positive Thinking
- Problem Solving
- Self Motivated Person
- Curious About New Technologies
